

# Murray to Moyne riders do it again!

On 27 and 28 March, a group of 16 cyclists from Mansfield tackled the infamous Woody's Murray-to-Moyne – a grueling 24 hour, 520km team cycle relay event. Their goal was to raise funds for Mansfield District Hospital.

A record amount of \$15,609.55 was raised at this years ride, this would not have been possible without the support from the Harry and Clare Friday Foundation who proudly came on board in support of the riders by matching dollar for dollar! Special thanks also needs to go to Mansfield-Mt Buller bus lines for donating the bus that transported the riders and all the many local business that continue to support this worthwhile cause.

“You may have seen us at the Bush Market,” said team organizer Jenny Lovick, “We peddled for 4 hours at the market, which was a lot of fun/sweat and achieved publicity and funds.

The Murray to Moyne has being going for over 10 years, raising many thousands of dollars over the years for Mansfield District Hospital.

Foundation founder, Christine Friday said, “We are delighted to support such a worthy cause. This community-minded group of cyclists saw the potential to raise extra funds for the Mansfield District Hospital and really went for it!”

Ms Friday would like to hear from other groups with ideas for fundraising for the Mansfield District Hospital, Bindaree or Buckland House.

“We are keen to support the hospital by matching community fundraising efforts dollar-for-dollar and we will also consider providing seed funding for larger fundraising projects,” she said.

For further information, please contact Eileen Conway on 0448 994 741

To make a Tax Deductible donation to the Harry and Clare Friday Foundation, please contact the Mansfield District Hospital on 5775 8800.
